## INTEGRAL INDIVIDUALITY

We are Käuferle. A family business from Aichach near Augsburg and leading manufacturer of garage doors and partition systems. We uphold your values. With technically well-designed products. With a design that matches your architecture. With complete, bespoke solutions and services that we are happy to develop and implement together with you.

Flexible modular construction. Individual layouts. Freely selectable claddings. The timelessly elegant Variobox Living in its Basic and Exclusive versions offers ideal solutions for private use.

Each Variobox Living is adapted to the functional and architectural requirements of your project. With a filigree modular steel structure and project-specific colours. With a timeless design and freely combinable materials – such as corrugated sheet metal, wood or trellises. Variobox Living makes it possible to create architectural gems even in small spaces – whether it's a light-flooded retreat for working in the garden, the relaxation area of an outdoor sauna or a light canopy for relaxing by the pool.

Perfect craftsmanship meets lovingly designed details, high-quality materials and countless customisation options. Soft fabric curtains, airy slats and light wall elements made of wood or metal – these and countless other furnishing options and accessories create rooms to linger in.

In addition to the VARIOBOX LIVING, Käuferle offers the particularly robust VARIOBOX PROFESSIONAL – the ideal solution for free-standing canopies, partitions and enclosures.

HOSPITALITY

## Individually designed

- Modular design enables flexible adaptation to a wide range of needs and locations
- Optionally with trapezoidal sheet metal cover aluminium or wooden slats
- Wall units with a wide variety of material and colour combinations

## Custom-made

- Floor plan configuration according to individual specifications
- Comprehensive support in all planning phases
- Consideration of the respective installation situation

## Timeless and durable

- Timelessly elegant design with filigree steel construction
- Many equipment details: Fabric curtains, airy slats and lightweight wall elements
- Long service life due to galvanisation and powder coating of all steel parts

## Made in Germany

- Exclusively designed and manufactured in Germany
- Short delivery times and rapid assembly due to high degree of prefabrication

**CARPORT**

Slim steel supports and airy wall elements form the basis for the elegant image of this carport.

Variobox Living Basic from Käuferle is generally made to measure and can therefore be easily adapted to a wide variety of sites in a wide range

of dimensions. This creates customised carports – with a wide range of material and design options for the side wall elements. Small assemblies for car accessories, bicycles or garden tools, for example, are also available as an option.

**Well thought out**

Can be combined with bicycle parking spaces and garden sheds

**Elegant**

Unique aesthetics thanks to timeless design and slim components

## BICYCLE GARAGE

With its straightforward design, this bicycle garage harmonises perfectly with modern, contemporary homes.

Whether open or lockable with hinged or sliding doors – this Variobox Living Basic provides easily

accessible and weather-protected storage for bicycles and e-bikes. Wall elements with open joints protect against unauthorised access, ensure good air circulation and at the same time provide an elegant appearance.

### Timeless

Straightforward design with elegant surfaces

### Flexible

Can be easily combined with carports or storage areas for garden tools

**RECYCLABLES**

Variobox Living Basic enables the storage of recyclables away from the elements and at the same time sets design accents.

The equally versatile and robust steel construction made of filigree hollow profiles can be customised

in a variety of floor plans. This ensures a tidy environment and optimum visual screening of bins for recyclables, paper, biowaste or residual waste, even if they are of different sizes.

**Durable**

Robust steel construction with many possible room layouts

**User-friendly**

Space-saving and with optimum air circulation

## GARDEN SHED

Garden equipment, tables, chairs and much more – all the little things required for your garden can be stored here.

Wall elements such as coloured Trespa panels, corrugated sheeting or battens made from local larch

wood create a very special look around residential buildings. If filigree side trellises for climbing plants are also used with this Variobox Living Basic, the garden shed and garden merge seamlessly into one another.

### Customised

Easy to customise thanks to variable dimensions

### Practical

Wide range of equipment details and accessories

**CABIN**

Create cosy retreats by the pool – with high-quality materials and a wide range of customisation options.

The filigree steel construction of the Variobox Living Exclusive is particularly suitable for creating pleasant, cosy outdoor areas. Perfectly crafted and lovingly

designed details – such as soft fabric curtains, airy slats and light wall elements – create elegant, clearly defined spaces that are both airy and open.

**Cosy**  
Areas with a pleasant, cosy atmosphere, even outdoors

**Aesthetic**  
Carefully crafted and lovingly designed details

## PAVILION

Structuring, zoning and organising outdoor areas around a house – for sheltered areas and a new quality of life in the garden.

Variobox Living Exclusive creates clearly demarcated green areas that invite you to linger – whether for

birthday parties, festive evening events or simply to relax in the fresh air. The construction of filigree hollow steel profiles allows a wide variety of floor plan configurations, so that the pavilions always fit in perfectly with the intended use and the surroundings.

### Variable

Wide range of floor plan configurations with filigree hollow steel profiles

### Inviting

Numerous equipment options and accessories

**DAYBED**

Into the comfort zone – with this daybed, gardens, terraces and pools become cosy feel-good areas.

Variobox Living Exclusive daybeds are weatherproof, multifunctional lounge furniture for outdoor use that can be used both as a comfortable bed and for

lounging, reclining and sitting. With a wide range of customisation options – such as fabric curtains or shade-providing slats – they create pleasant islands of retreat in the garden, by the pool or on the patio.

**Comfortable**

Plenty of space and privacy for comfortable lounging for two

**Weatherproof**

Robust, carefully handcrafted materials

## HOSPITALITY

More scope for sheltered outdoor seating – thanks to the modular system design and many intelligent extras.

Variobox Living Exclusive creates outdoor seating areas protected from sun and rain. The modular, timelessly elegant design of the filigree steel

construction forms the basis for a wide variety of design and catering concepts. Trellises and wall elements made of larch wood are available as well as curtains or slats, panels and trellises made of aluminium.

## Modular

High flexibility thanks to modular system design

## High degree of design flexibility

Suitable for a wide range of design and catering concepts

DIMENSIONS

Variobox Living Basic and Variobox Living Exclusive are designed as a smart modular system in which the standard modules can be easily combined with

each other. In addition, customised solutions that are perfectly tailored to the user's needs are also possible.

CREATIVE PLAY SPACES

The Variobox Living from Käuferle can be flexibly adapted to a wide variety of locations and functional requirements. This is ensured by the individually configurable floor plans as well as the wide range of design options. Fabric curtains, airy slats and light wall elements made of wood or metal – these and countless other furnishing options and accessories create rooms to linger in.

Colour options

The RAL standard colours shown here show some harmoniously coordinated colour examples for the galvanised and powder-coated steel components. The appearance of the Variobox Living can be customised with a wide range of other colour, surface and material variants.

LIVING BASIC

With its robust steel construction made of filigree hollow profiles, the Variobox Living Basic is ideal for storing vehicles, bicycles, recyclables and garden furniture.

It creates pleasant, cosy areas and contributes to the more efficient use and better design of outdoor spaces in front of residential buildings.

**ENCLOSURE FOR RECYCLABLES, SINGLE-FAMILY HOUSE**  
Offers space for 3 x 240 litre waste bins

**GARDEN SHED WITH OPEN PERGOLA**  
Base frame: e.g. RAL 1019 grey beige, wall panels: Natural larch wooden battens, roof panel: right: Trapezoidal sheet metal, pergola: Trellis with climbing plants

**CARPORT WITH RECYCLABLES AND BICYCLE ENCLOSURE**  
Carport wall panels: Perforated sheet in RAL, surface-mounted: Natural larch wooden battens, roof panel: Trapezoidal sheet metal

LIVING EXCLUSIVE

The Living Exclusive design variant leaves nothing to be desired. It enables architectural gems with lovingly designed details – whether it's a light-flooded retreat

for working in the garden, the relaxation area of an outdoor sauna or a light canopy for relaxing by the pool.

**POOL PAVILION**  
Base frame: e.g. RAL 4009 pastel violet, wall panels: left and top wooden battens slanted, right aluminium slats, Kvadrat patio curtain, roof panel: left section straight aluminium slats, right section slanted aluminium slats
